★ UPPCS & UKPCS Prelims Daily Fact Dump · Active Recall Cheat-Sheet

Exam Focus: UPPSC Prelims (Paper 1), UKPSC Prelims (Paper 1), RO/ARO, BEO
Frequency: Daily morning read (15–20 mins)
Question Types Covered: Census 2011 National Indicators vs State Rankings, Decadal Growth, Sex Ratio (Overall & Child 0-6), Population Density, Literacy (Overall, Male, Female, Gender Gap), Scheduled Castes & Scheduled Tribes Extremes, Religious Demographics, Uttar Pradesh District-Level Census Extremes, Uttarakhand District Extremes, Urbanisation Rates & Million-Plus Urban Agglomerations.

1. Indian Census History & Legal Framework

MILESTONE / PARAMETER	YEAR / DETAIL	HISTORICAL / LEGAL CONTEXT
First Census in Modern India	**1872**	Conducted non-synchronously under **Lord Mayo**.
First Synchronous Decennial Census	**1881**	Conducted across all India under Viceroy **Lord Ripon** (Census Commissioner: **W.C. Plowden**).
The Year of the Great Divide	**1921**	The only census decade in Indian history showing a **negative population growth rate (-0.31%)** due to 1918 Spanish Flu pandemic, plague, and severe famine.
First Census of Independent India	**1951**	Census Commissioner: **R.A. Gopalaswami**. Total population: 361 million; sex ratio: 946.
Census Act, 1948	Enacted under Sardar Vallabhbhai Patel	Permanent statutory basis; census figures are strictly confidential and inadmissible in courts as evidence.
Nodal Authority	Registrar General and Census Commissioner of India (RGCCI)	Under **Ministry of Home Affairs (MHA)**, New Delhi.
2011 Census Edition	**15th Census of India** (7th after Independence)	Motto: "*Our Census, Our Future*"; Mascot: Woman Enumerator; Commissioner: **Dr. C. Chandramouli**.

2. Census 2011 Master Matrix: National Indicators

DEMOGRAPHIC INDICATOR	CENSUS 2001	CENSUS 2011	ABSOLUTE / PERCENTAGE CHANGE
Total Population	1,028.7 million	**1,210.85 million** (~121.08 Cr)	$+182.1$ million (+17.7%)
Male Population	532.2 million (51.74%)	**623.27 million (51.54%)**	Male proportion decreased slightly
Female Population	496.5 million (48.26%)	**587.58 million (48.46%)**	Female proportion increased
Decadal Growth Rate (2001–11)	21.54%	**17.70%**	Decreased by **3.84 percentage points**
Annual Exponential Growth Rate	1.97%	**1.64%**	Decelerating trend
Population Density (persons/sq km)	325	**382**	Increased by **+57 persons/sq km**
Overall Sex Ratio (females/1000 males)	933	**943**	Improved by **+10 points**
Child Sex Ratio (0–6 years)	927	**918**	**Declined by -9 points** (Critical alarm zone)
Child Population (0–6 years) share	15.93%	**13.59%**	Reflects falling fertility rates
Overall Literacy Rate	64.83%	**73.00%** (some official reports 74.04%)	Increased by **+8.17 percentage points**
Male Literacy Rate	75.26%	**80.90%** (or 82.14%)	Improved
Female Literacy Rate	53.67%	**64.60%** (or 65.46%)	Faster gain than males (+10.93%)
Gender Gap in Literacy	21.59%	**16.30%** (or 16.68%)	Narrowed by **5.29 percentage points**
Urban Population Share	27.81%	**31.16%**	Increased by $+3.35$ percentage points
Rural Population Share	72.19%	**68.84%**	Decreased proportionally

3. State & UT Rankings: Top & Bottom Extremes (Census 2011)

DEMOGRAPHIC PARAMETER	HIGHEST / TOP 1 (STATE / UT)	LOWEST / BOTTOM 1 (STATE / UT)
Total Population (States)	**Uttar Pradesh** (199.81 million, 16.51% of India)	**Sikkim** (610,577 persons)
Total Population (UTs)	**NCT Delhi** (16.78 million)	**Lakshadweep** (64,473 persons)
Decadal Growth Rate (States)	**Meghalaya** (27.95%) > Arunachal Pradesh (26.03%)	**Nagaland** (**-0.58%**, *only negative growth state*)
Decadal Growth Rate (UTs)	**Dadra & Nagar Haveli** (55.88%)	**Lakshadweep** (6.30%)
Population Density (States)	**Bihar** (1,106/sq km) > West Bengal (1,028) > Kerala (860) > UP (829)	**Arunachal Pradesh** (**17/sq km**)
Population Density (UTs)	**NCT Delhi** (11,320/sq km)	**Andaman & Nicobar Islands** (46/sq km)
Sex Ratio (States)	**Kerala** (1,084) > Tamil Nadu (996) > Andhra Pradesh (993)	**Haryana** (**879**) < Jammu & Kashmir (889)
Sex Ratio (UTs)	**Puducherry** (1,037)	**Daman & Diu** (**618**)
Child Sex Ratio (0–6 years)	**Mizoram** (971) > Meghalaya (970)	**Haryana** (**834**) < Punjab (846)
Overall Literacy Rate (States)	**Kerala** (94.00%) > Mizoram (91.33%) > Goa (88.70%)	**Bihar** (**61.80%**) < Arunachal (65.38%) < Rajasthan (66.11%)
Male Literacy Rate	**Kerala** (96.11%) > Mizoram (93.35%)	**Bihar** (**71.20%**)
Female Literacy Rate	**Kerala** (92.07%) > Mizoram (89.27%)	**Bihar** (**51.50%**) < Rajasthan (52.12%)
Highest Gender Gap in Literacy	**Rajasthan** (**27.1%** gap: Male 79.2% vs Female 52.1%)	**Meghalaya** (**3.1%** gap) < Kerala (4.04% gap)

4. Scheduled Castes (SC) and Scheduled Tribes (ST) Demographics

A. Scheduled Castes (SC) — Census 2011

- Total SC Population in India: **201.4 million** (**16.6%** of total population).
- **Highest SC Population (Absolute): Uttar Pradesh** (41.35 million, accounts for 20.5% of total Indian SCs) > West Bengal (21.46M) > Bihar (16.57M).
- **Highest SC Percentage (% of State Population): Punjab** (**31.9%**) > Himachal Pradesh (25.2%) > West Bengal (23.5%) > Uttar Pradesh (20.7%).
- **States/UTs with NO Scheduled Castes: Nagaland, Mizoram, Lakshadweep, Andaman & Nicobar Islands**.

B. Scheduled Tribes (ST) — Census 2011

- Total ST Population in India: **104.3 million** (**8.6%** of total population).
- **Highest ST Population (Absolute): Madhya Pradesh** (15.31 million, 14.7% of all Indian STs) > Maharashtra (10.51M) > Odisha (9.59M).
- **Highest ST Percentage (% of State/UT): Lakshadweep** (**94.8%**) and **Mizoram** (**94.4%**) > Nagaland (86.5%) > Meghalaya (86.1%).
- **States/UTs with NO Scheduled Tribes: Punjab, Haryana, Chandigarh, Delhi, Puducherry**.

5. Religious Demographics Hierarchy (Census 2011)

RELIGION	TOTAL POPULATION	% OF INDIA POPULATION	DECADAL GROWTH (2001–11)	SEX RATIO (2011)
Hindu	966.3 million	**79.80%**	16.76%	939
Muslim	172.2 million	**14.23%**	**24.60%** (highest among major)	951
Christian	27.8 million	**2.30%**	15.50%	**1,023** (highest sex ratio)
Sikh	20.8 million	**1.72%**	8.40%	903
Buddhist	8.4 million	**0.70%**	6.10%	965
Jain	4.5 million	**0.37%**	5.40%	954 (Highest literacy: 94.9%)
Other / Not Stated	10.8 million	0.88%	-	-

6. Uttar Pradesh Census 2011 District Extremes Master Sheet

PARAMETER IN UTTAR PRADESH	UP OVERALL FIGURE	TOP / HIGHEST DISTRICT IN UP	BOTTOM / LOWEST DISTRICT IN UP
Total Population	**199,812,341** (16.51% of India)	**Prayagraj (Allahabad)** (5.95M) > Moradabad > Ghaziabad	**Mahoba** (875,958) < Chitrakoot < Hamirpur
Decadal Growth Rate	**20.23%** (2001–2011)	**Gautam Buddha Nagar** (**49.1%**) > Ghaziabad (41.3%)	**Kanpur Nagar** (**9.9%**) < Hamirpur (11.1%)
Population Density	**829 persons/sq km**	**Ghaziabad** (**3,971/sq km**) > Varanasi (2,395)	**Lalitpur** (**242/sq km**) < Sonbhadra (270)
Overall Sex Ratio	**912 females/1000 males**	**Jaunpur** (**1,024**) > Azamgarh (1,019) > Deoria (1,017)	**Gautam Buddha Nagar** (**851**) < Hamirpur/Kanpur (861)
Child Sex Ratio (0–6)	**902 females/1000 males**	**Balrampur** (**950**) > Sant Kabir Nagar (942)	**Baghpat** (**841**) < Gautam Buddha Nagar (843)
Overall Literacy Rate	**67.68%**	**Auraiya** (**78.95%**) > Kanpur Nagar (79.65% urban / Auraiya overall) > Etawah	**Shrawasti** (**46.74%**) < Bahraich (49.36%) < Balrampur (49.51%)
Male Literacy Rate	**77.28%**	**Gautam Buddha Nagar** (**88.06%**) > Auraiya	**Shrawasti** (**57.16%**) < Bahraich
Female Literacy Rate	**57.18%**	**Kanpur Nagar** (**75.05%**) > Lucknow (71.54%)	**Shrawasti** (**34.78%**) < Balrampur (37.22%)
Lowest Gender Gap in Literacy	20.10% (Male 77.28% $-$ Female 57.18%)	**Kanpur Nagar** (Narrowest gender gap: 8.5%)	**Maharajganj** (Widest gender gap: 26.9%)
SC Population (Absolute)	**41.35 million** (20.70% of UP)	**Sitapur** (highest absolute SC pop)	**Baghpat** (lowest absolute SC pop)
SC Percentage (%)	20.70% of UP	**Kaushambi** (**34.72%**) > Sitapur	**Baghpat** (**11.44%**)
ST Population & %	**1.13 million** (0.57% of UP)	**Sonbhadra** (**20.67%** and highest absolute)	**Baghpat, Badaun, Ayodhya** (almost zero ST)

UP Urbanisation: 22.27% of UP population lives in urban areas; **77.73%** in rural areas.
Highest Urbanised District (%): **Ghaziabad (67.6%)** > Lucknow (66.2%) > Kanpur Nagar (65.8%).
Lowest Urbanised District (%): **Shrawasti (3.5%)** > Kushi Nagar (4.7%).
7 Million-Plus Cities in UP: Kanpur, Lucknow, Ghaziabad, Agra, Varanasi, Meerut, Prayagraj.

7. Uttarakhand Census 2011 Highlights

- **Total Population: 10,086,292** (~1.01 Crore, 0.83% of India).
- **Decadal Growth Rate: 18.81%** (Plains growing rapidly: US Nagar 33.4%, Haridwar 30.6%; Hill districts showing negative growth: **Almora -1.28%**, **Pauri Garhwal -1.41%** - ghost villages phenomenon).
- **Population Density: 189 persons/sq km** (Haridwar highest at 801; Uttarkashi lowest at 41).
- **Overall Sex Ratio: 963 females/1000 males** (Almora highest at 1,139; Haridwar lowest at 880).
- **Child Sex Ratio (0–6 years): 890** (Pithoragarh lowest at 816).
- **Overall Literacy Rate: 78.82%** (Male 87.40%, Female 70.01%). Highest literacy: **Dehradun (84.25%)**; Lowest: **Haridwar (73.43%)**.

Chapter 02: Census and Urbanisation Topic 1 — Census and Population Data

🎯 Consolidated Must-Score Facts

1. **W. C. Plowden** was the first Census Commissioner of India during the 1881 Census.
2. **Census 2011** was the **15th National Census** of India since 1872 and the **7th Census after Independence**.
3. **Kerala** had the highest sex ratio among Indian States (**1,084**), while **Haryana** had the lowest (**879**).
4. **Meghalaya** recorded the highest decadal population growth rate among States (**27.95%**), followed by Arunachal Pradesh (26.03%).
5. **Nagaland** was the only Indian State to record a **negative decadal growth rate (-0.58%)** during 2001–2011.
6. **Bihar** has the highest population density among States (**1,106 persons / sq km**), followed by West Bengal (1,028).
7. **Arunachal Pradesh** has the lowest population density in India (**17 persons / sq km**).
8. **Punjab** has the highest proportion of Scheduled Castes (**31.9%**), while **Uttar Pradesh** has the largest absolute SC population.
9. **Madhya Pradesh** has the highest absolute Scheduled Tribe population, while **Lakshadweep (94.8%)** and **Mizoram (94.4%)** have the highest ST percentages.
10. **Goa** is the most urbanised State in India (**62.2% urban population**), while **Himachal Pradesh** is the least urbanised (**10.0%**).
11. **Gautam Buddha Nagar** recorded the highest decadal growth rate in UP (**49.1%**), while **Kanpur Nagar** recorded the lowest (**9.9%**).
12. **Ghaziabad** has the highest population density in UP (**3,971 / km^2**), while **Lalitpur** has the lowest (**242 / km^2**).
13. **Jaunpur** has the highest sex ratio in UP (**1,024**), while **Gautam Buddha Nagar** has the lowest (**851**).
14. **Gautam Buddha Nagar** has the highest literacy rate in UP (**80.12%**), while **Shravasti** has the lowest (**46.74%**).
15. **Kanpur Nagar** has the highest female literacy rate in UP (**75.05%**), while **Shravasti** has the lowest female literacy (**34.78%**).
16. **Union Subject**: Under **Article 246** of the Constitution of India, Census is a subject allocated exclusively to the Union Government (**Entry 69 in the Union List / List I of the Seventh Schedule**). State governments have no legislative competence to conduct a national census.
17. **The Census Act, 1948 (Act No. 37 of 1948)**:
18. **Confidentiality Clause (Section 15)**: Individual census records are strictly confidential and privileged. They are immune from production in any civil, criminal, or revenue court as evidence against the individual.
19. **The Census Rules, 1990**: Notified under Section 18 of the Census Act to lay down administrative guidelines, schedules, and enumeration procedures.
20. **Registrar General and Census Commissioner of India (RGCCI)**: The apex statutory civil authority in charge of planning, organizing, executing, and tabulating the decennial National Census and administering the **Registration of Births and Deaths Act, 1969**.
21. **State/UT Level**: Headed by the **Director of Census Operations (DCO)**.
22. **District Level**: The **District Magistrate / Collector** functions *ex-officio* as the **Principal Census Officer (PCO)**, assisted by Tahsildars / Sub-Divisional Magistrates as Charge Officers.
23. **Phase 1: House Listing and Housing Census (HLO)**:
24. **Phase 2: Population Enumeration (PE)**:
25. **De Facto Method**: Individuals are counted strictly where they are physically present on the census reference night, regardless of their habitual or permanent residence. (Used in the UK and in historical British censuses).
26. **De Jure Method**: Individuals are counted strictly at their normal/habitual place of residence, irrespective of where they happen to be on the enumeration night. (Used in the United States).
27. **India's Adopted Method**: India follows an **extended de facto / modified de jure approach**. A person is enumerated at their place of normal residence if they have stayed there for the major part of the enumeration period (or are expected to stay during the reference period). Non-habitual visitors and homeless populations are counted on the night of 28th February.
28. **Sex Ratio**: 912 — well below national average of 943
29. **Child Sex Ratio**: 902 — significantly below national 919

30. **Literacy gap**: 20.1 percentage points (M: 77.3% vs F: 57.2%) vs national 16.3%
31. **Fertility rate**: TFR of ~3.1 (above national ~2.2) per SRS

Chapter 03: Census and Urbanisation Topic 2 — Population Growth, Demographic Transition and Theories

🎯 Consolidated Must-Score Facts

1. **Thomas Robert Malthus** published his seminal work *An Essay on the Principle of Population* in **1798**.
2. **Stage 1 (High Stationary)** of DTT is characterized by high birth rates, high death rates, and a stable, low population.
3. **Stage 2 (Early Expanding)** of DTT is characterized by high birth rates and rapidly falling death rates, leading to a **Population Explosion**.
4. **Stage 3 (Late Expanding)** of DTT is characterized by rapidly falling birth rates and low death rates, with population growth slowing down.
5. **Stage 4 (Low Stationary)** of DTT is characterized by low birth rates, low death rates, and a stable, mature population.
6. **India is currently in Stage 3 (Late Expanding Phase)** of the Demographic Transition.
7. **India prior to 1921** was in **Stage 1 (High Stationary Phase)** of the Demographic Transition.
8. **Hugh Dalton** formulated the degree of maladjustment equation: **$M = (A - O) / O$**, where A is Actual Population and O is Optimum Population.
9. **Karl Marx** rejected Malthusian population theory, arguing that overpopulation and poverty are products of **capitalist exploitation**, not natural laws.
10. **Ester Boserup (1965)** propounded that population pressure acts as an engine of agricultural innovation and intensification.
11. **Phase II (1921–1951)** in India was characterized by **steady, moderate population growth**.
12. **Phase III (1951–1981)** in India was characterized by **rapid high growth / Population Explosion**.
13. **Phase IV (1981–2011+)** in India is characterized by **high growth with clear signs of slowing down**.
14. **Natural Increase of Population** is calculated as: **Crude Birth Rate (CBR) minus Crude Death Rate (CDR)**.
15. **Henry George** in *Progress and Poverty* (1879) argued that poverty arises from land monopoly and landlord rent extraction, not overpopulation.
16. **Paul R. Ehrlich** published the Neo-Malthusian bestseller *The Population Bomb* in **1968**.
17. **Julian Simon** in *The Ultimate Resource* (1981) argued that human intellect and labour are the ultimate economic resource.
18. **Natural Growth Rate of Population**:
19. **Decadal Growth Rate**:
20. **Annual Exponential Growth Rate (r)**:
21. **Population Doubling Time (Rule of 70)**:
22. **The Agricultural Revolution & Technological Innovations**:
23. **Transportation & Global Food Supply Chains**:
24. **Voluntary Birth Control & Rising Living Standards**:
25. **Distinction between Biological Capability and Human Workforce**:
26. **Underpopulation**: When the population of a country is too small relative to its natural resources and capital stock. In this state, the full benefits of division of labour, economies of scale, and infrastructure utilization cannot be realized. An increase in population leads to **increasing returns and rising per capita income**.
27. **Optimum Population Point (O)**: That precise population size where the Law of Diminishing Returns is exactly balanced by the economies of large-scale production, resulting in the **highest possible output per head**.
28. **Overpopulation**: When population exceeds the optimum point. The pressure of population on fixed natural resources and capital causes the Law of Diminishing Marginal Returns to dominate, resulting in **declining per capita income and falling living standards**.

Chapter 04: Census and Urbanisation Topic 3 — Population Composition and Demographic Characteristics

🎯 Consolidated Must-Score Facts

1. **Kerala** has the highest sex ratio among Indian States at **1,084**, followed by Tamil Nadu (996) and Andhra Pradesh (993).
2. **Haryana** has the lowest sex ratio among Indian States at **879**, followed by Jammu & Kashmir (889) and Sikkim (890).
3. **Puducherry** has the highest sex ratio among Union Territories at **1,037**, while **Daman & Diu** has the lowest at **618**.
4. **Mizoram** recorded the highest Child Sex Ratio among States at **970**, followed by Meghalaya (970) and Chhattisgarh (969).
5. **Haryana** recorded the lowest Child Sex Ratio among States at **834**, followed by Punjab (846).
6. **Kerala** has the highest overall literacy rate (**94.0%**) as well as highest female literacy (**92.1%**).
7. **Bihar** has the lowest overall literacy rate (**61.8%**) and the lowest male literacy rate (**71.2%**).
8. **Rajasthan** recorded the lowest female literacy rate among all States at **52.1%** (and the widest gender literacy gap of **27.1%**).
9. **Meghalaya** recorded the narrowest gender gap in literacy in India at only **3.1 percentage points**.
10. **Uttar Pradesh** has the largest absolute Scheduled Caste population in India (**4.14 Crore**).
11. **Punjab** has the highest proportion of Scheduled Castes relative to its total population (**31.9%**).
12. **Madhya Pradesh** has the largest absolute Scheduled Tribe population in India (**1.53 Crore**).
13. **Lakshadweep (94.8%)** and **Mizoram (94.4%)** have the highest percentage of Scheduled Tribes in their total population.
14. **Muslims** constitute **14.23% (17.22 Crore)** of India's population, with the highest decadal growth (**24.6%**) among major religions.
15. **Christians** constitute **2.30% (2.78 Crore)** of India's population and have the highest sex ratio (**1,023**) among all major religious communities.
16. **Sikhs** constitute **1.72% (2.08 Crore)** of India's population and have the lowest sex ratio (**903**) among all major religious communities.
17. **Buddhists** constitute **0.70% (0.84 Crore)** of India's population, with the largest absolute community residing in **Maharashtra (65.3 Lakh)**.
18. **Jains** constitute **0.37% (0.45 Crore)** of India's population and possess the **highest literacy rate (94.9%)** of any religious community in India.
19. **Hindi** is the most spoken language in India, spoken by **43.63% (52.83 Crore)** of the total population.
20. **Bengali** is the second most spoken language in India (**8.03%**), followed by **Marathi (6.86%)** and **Telugu (6.70%)**.
21. **Sanskrit** is the least spoken Eighth Schedule language in India, with only **24,821 speakers** recorded in Census 2011.
22. **Young / Child Cohort (0–14 Years)**:
23. **Working-Age Cohort (15–59 Years)**:
24. **Elderly / Senior Citizen Cohort (60+ Years)**:
25. **Total Dependency Ratio (TDR)**:
26. **Young Dependency Ratio (YDR)**:
27. **Old-Age / Elderly Dependency Ratio (ODR)**:
28. **Main Workers**: Persons who engaged in any economically productive activity for **183 days (6 months) or more** during the preceding 365 days.
29. **Marginal Workers**: Persons who worked for **less than 183 days (less than 6 months)** during the preceding year (further categorized into those working for 0–3 months and 3–6 months).
30. **Non-Workers**: Persons who did not engage in any economic work during the entire year (students, homemakers, dependents, retired persons, beggars).
31. **Four Standard Industrial Categories of Workers**:
32. **Cultivators (CL)**: Persons engaged in farming/cultivating land owned or held from government/private persons (24.6% of total workers).

33. **Agricultural Labourers (AL)**: Persons who work on another person's land for wages in money or kind without holding ownership/lease rights (30.0% of total workers).
34. **Household Industry Workers (HHI)**: Workers in manufacturing, processing, servicing, or repairing conducted within the home by household members (3.8%).
35. **Other Workers (OW)**: All workers engaged in factories, government, commerce, IT, transport, mining, and services (41.6%).

Chapter 05: Census and Urbanisation Topic 4 — Fertility, Mortality, Health and Population Policies

🎯 Consolidated Must-Score Facts

1. **Total Fertility Rate (TFR)** is the average number of children a woman would bear in her lifetime given current age-specific fertility rates.
2. **Crude Birth Rate (CBR)** is calculated per **1,000 mid-year total population**.
3. **Crude Death Rate (CDR)** of India in recent SRS estimates is approximately **6.0 deaths per 1,000 population**.
4. **Infant Mortality Rate (IMR)** is defined as the number of deaths of children under 1 year of age per **1,000 live births**.
5. **Kerala** has the lowest IMR among Indian States at **6 per 1,000 live births**, while **Madhya Pradesh** has the highest at **43**.
6. **Neonatal Mortality Rate (NMR)** measures deaths of infants occurring within the first **28 days of life** per 1,000 live births.
7. **Early Neonatal Mortality** refers to infant deaths within the first **7 days of life**.
8. **Maternal Mortality Ratio (MMR)** is defined as maternal deaths per **100,000 (1 Lakh) live births**.
9. **Kerala** has the lowest MMR in India at **19 per Lakh live births**, while **Assam** has the highest at **195**.
10. **Life Expectancy at Birth (e_0)** in India is currently estimated at **70.8 years** (Females: 72.2 years, Males: 69.5 years).
11. **Kerala** has the highest life expectancy at birth in India (**75.3 years**), while **Uttar Pradesh and Chhattisgarh** have among the lowest (~65.6 years).
12. **Gross Reproduction Rate (GRR)** measures the average number of **female daughters** born to a woman during her lifetime, ignoring mortality.
13. **Net Reproduction Rate (NRR)** measures the number of surviving daughters who will replace their mothers, accounting for female mortality.
14. **NRR = 1.0** indicates that the population has achieved the exact demographic replacement level.
15. **Janani Suraksha Yojana (JSY)** was launched in April 2005 under NRHM to promote **institutional deliveries** among BPL and SC/ST pregnant women.
16. **Janani Shishu Suraksha Karyakram (JSSK)** was launched on **1 June 2011** to provide completely free, cashless delivery and newborn care.
17. **Mission Indradhanush** was launched on **25 December 2014 (Good Governance Day)** to achieve full immunization coverage against 12 vaccine-preventable diseases.
18. **Pradhan Mantri Matru Vandana Yojana (PMMVY)** was launched on **1 January 2017** under Section 4 of the National Food Security Act, 2013.
19. **Pradhan Mantri Surakshit Matritva Abhiyan (PMSMA)** provides fixed-day free comprehensive antenatal check-ups on the **9th of every month**.
20. **Ayushman Bharat - PM-JAY** provides health insurance coverage of **Rs 5 Lakh per family per year** for secondary and tertiary care.
21. **Sample Registration System (SRS)** under the Registrar General of India publishes the official annual data for CBR, CDR, IMR, TFR, and MMR in India.
22. **Definition**: The average number of children that would be born alive to a woman during her lifetime if she were to pass through her childbearing years (15–49) conforming to the age-specific fertility rates of a given year.
23. **Replacement Level Fertility ($TFR = 2.1$)**:
24. **Determinants of Falling Fertility in India**:
25. **Janani Suraksha Yojana (JSY, April 2005)**:
26. **Cash Assistance in Low Performing States (LPS like UP, Bihar, MP, Rajasthan)**:
27. **Janani Shishu Suraksha Karyakram (JSSK, June 2011)**:
28. **Pradhan Mantri Surakshit Matritva Abhiyan (PMSMA)**:
29. **Mission Indradhanush (Launched 25 December 2014)**:

Chapter 06: Census and Urbanisation Topic 5 — Migration and Population Distribution

🎯 Consolidated Must-Score Facts

1. **Rural to Rural (R $ o$ R)** is the **largest internal migration stream** in India, accounting for over 53% of all internal migrants.
2. **Marriage** is the single largest reason for female migration in India, accounting for **66.7% (two-thirds)** of all female migrants.
3. **Work / Employment** is the single largest reason for male internal migration in India, accounting for approximately **38%** of male migrants.
4. **Urban to Rural (U $ o$ R)** is the smallest migration stream in India, representing return migration post-retirement or economic crisis.
5. **Intra-district migration** accounts for the largest share (**62%**) of internal migration in India.
6. **Inter-state migration** constitutes approximately **12%** (5.4 Crore migrants) of total internal migrants in India.
7. **Uttar Pradesh** is the **largest net source State** of out-migrants in India, followed by **Bihar**.
8. **Maharashtra** is the **largest destination State** for inter-state in-migrants in India, followed by the **NCT of Delhi**.
9. **E. G. Ravenstein** published the foundational **"Laws of Migration"** in **1885 / 1889**.
10. **Push Factors** are adverse conditions that compel people to leave their place of origin (unemployment, poverty, drought, crop failure).
11. **Pull Factors** are attractive conditions that draw migrants to a destination (better employment, higher wages, modern healthcare, urban amenities).
12. **Arithmetic Population Density** is calculated as: **Total Population divided by Total Geographical Land Area**.
13. **Physiological / Nutritional Density** is calculated as: **Total Population divided by Net Cultivated / Arable Land Area**.
14. **Agricultural Density** is calculated as: **Total Agricultural Population divided by Net Cultivated Land Area**.
15. **Bihar** has the highest arithmetic population density among Indian States (**1,106 persons / sq km**).
16. **West Bengal** ranks second in population density among States (**1,028 persons / sq km**).
17. **Arunachal Pradesh** has the lowest population density in India (**17 persons / sq km**).
18. **Step Migration** refers to a spatial process where a migrant moves in stages (e.g. from a small village to a local town, then to a regional city, and finally to a metropolis).
19. **Circular / Seasonal Migration** refers to temporary, recurring movements of rural labourers who travel for seasonal farm or construction work and return home.
20. **Feminization of Agriculture** refers to the increasing proportion of agricultural work performed by rural women due to male out-migration to urban industrial centers.
21. **Brain Drain** refers to the cross-border international migration of highly skilled and educated professionals (doctors, engineers, scientists) from developing to developed countries.
22. **Ecological / Climate Migrants** are individuals forced to migrate due to environmental degradation, rising sea levels, desertification, or natural disasters.
23. **Categorisation by Movement Scale**:
24. **Intra-District Migrants**: Movement within the same district (**62%** of all migrants — predominantly female marriage migration).
25. **Inter-District Migrants**: Movement across districts within the same State (**26%**).
26. **Inter-State Migrants**: Movement across State boundaries (**12%**, approx. 5.4 Crore migrants).
27. **Female Migration Drivers**:
28. **Marriage accounts for 66.7%** (two-thirds) of all female migration in India due to traditional patrilocal village exogamy.
29. **Male Migration Drivers**:
30. **Work / Employment / Business is the primary driver (approx. 38%–40%)** for male internal migration.
31. **Out-Migration Origins (Net Source States)**:
32. **Uttar Pradesh** is the single largest source of out-migrants in India, followed closely by **Bihar**, Rajasthan, and Madhya Pradesh.

33. **In-Migration Destinations (Net Inflow States)**:
34. **Maharashtra** is the top destination state in India (attracting ~20% of all inter-state migrants, primarily in the Mumbai Metropolitan Region and Pune).
35. **National Capital Territory of Delhi (NCT)** is the second largest destination.

Chapter 07: Census and Urbanisation Topic 6 — Urbanisation and Urban Development

🎯 Consolidated Must-Score Facts

1. **Goa** is the most urbanised State in India, with **62.2%** of its population living in urban areas.
2. **Mizoram** is the second most urbanised State in India (**52.1%**), followed by **Tamil Nadu (48.4%)**.
3. **Himachal Pradesh** is the least urbanised State in India, with only **10.0%** urban population.
4. **Bihar** is the second least urbanised State in India (**11.3%**), followed by Assam (14.1%).
5. **Maharashtra** has the largest absolute urban population in India (**5.08 Crore**), followed by **Uttar Pradesh (4.45 Crore)**.
6. **Class I Towns (Cities)** are defined as urban centres having a population of **100,000 (1 Lakh) and above**.
7. **Greater Mumbai Urban Agglomeration** is the most populous urban agglomeration in India with **18.4 Million inhabitants**.
8. **Delhi Urban Agglomeration** is the second most populous UA (**16.3 Million**), followed by **Kolkata UA (14.1 Million)**.
9. **Kanpur** is the most populous city within municipal limits in Uttar Pradesh.
10. **Maharashtra** has the highest slum population in India (**1.18 Crore**), followed by Andhra Pradesh (1.02 Crore).
11. **Dharavi** in Mumbai is one of the largest informal slum settlements in Asia.
12. **AMRUT 2.0** was launched in **October 2021** with an outlay of **Rs 2.77 Lakh Crore** to provide 100% water security across all statutory towns.
13. **Pradhan Mantri Awas Yojana - Urban (PMAY-U)** was launched on **25 June 2015** to provide pucca houses under four verticals.
14. **Swachh Bharat Mission - Urban (SBM-U)** was launched on **2 October 2014** to eliminate open defecation and achieve scientific waste management.
15. **PM SVANidhi** scheme was launched on **1 June 2020** by MoHUA to provide collateral-free working capital loans of Rs 10,000 to **Urban Street Vendors**.
16. **Urban Sprawl** refers to the rapid, unplanned spatial expansion of a city into its surrounding rural-urban fringe.
17. **Primacy / Primate City Law** was formulated by **Mark Jefferson in 1939**, stating that a country's leading city is disproportionately larger than any other city.
18. **Conurbation** is an extensive continuous urban area formed by the coalescing of several expanding cities and towns, a term coined by **Patrick Geddes in 1915**.
19. **Megalopolis** refers to a massive clustered network of adjacent metropolitan areas, a term coined by **Jean Gottmann in 1961** (e.g. Boston to Washington D.C.).
20. **Gentrification** is the socio-economic process of renovating and improving urban deteriorated neighbourhoods, often displacing lower-income residents.
21. **Statutory Towns (Administrative Urban)**:
22. **Census Towns (Demographic Urban)**:
23. **Three-Tier Structure of Urban Local Bodies (ULBs)**:
24. **Nagar Panchayat**: For a transitional area (rural-to-urban transition).
25. **Municipal Council (Nagar Palika Parishad)**: For a smaller urban area.
26. **Municipal Corporation (Nagar Nigam)**: For a larger urban area.
27. **Key Constitutional Committees**:
28. **Wards Committees (Article 243S)**: Mandatory for municipalities having a population of **3 Lakh or more**.
29. **District Planning Committee - DPC (Article 243ZD)**: Consolidates plans prepared by Panchayats and Municipalities across the district. At least **four-fifths (80%)** of DPC members must be elected by and from among the elected members of the Zila Panchayat and Municipalities.
30. **Metropolitan Planning Committee - MPC (Article 243ZE)**: Mandatory for every metropolitan area with population $\ge 10 ext{ Lakh}$. At least **two-thirds (66.7%)** of MPC members must be elected by and from the elected members of Municipalities and Chairpersons of Panchayats in the metropolitan area.

31. **Census Definition of Slum**: A compact area of at least **300 population or about 60–70 households** of poorly built congested tenements in unhygienic environments, lacking basic civic amenities (clean drinking water, drainage, sanitation).
32. **Three Categories of Slums (Census 2011)**:
33. **Notified Slums**: All specified areas in a town formally notified as slums by State Governments or local authorities under Slum Acts.
34. **Recognized Slums**: Areas recognized as slums by State Governments/ULBs, although not formally notified under legislation.
35. **Identified Slums**: Compact areas identified by census enumerators satisfying slum criteria (300+ people or 60+ households).

Chapter 08: Census and Urbanisation Topic 7 — World Population and Demographic Miscellaneous

🎯 Consolidated Must-Score Facts

1. **India** officially surpassed China to become the **most populous country in the world** in **April 2023** according to UN DESA estimates.
2. **Asia** is the most populous continent, containing approximately **60% of the total world population**.
3. **Africa** is the second most populous continent (**~18%**) and possesses the highest population growth rate and highest fertility rate (TFR ~4.2).
4. **World Population Day** is observed globally every year on **11 July**.
5. **Monaco** is the most densely populated sovereign nation in the world (approx. **26,000 persons / sq km**).
6. **Bangladesh** is the most densely populated major country (population $> 10 ext{ Million}$) in the world (approx. **1,160 persons / sq km**).
7. **Mongolia** is the least densely populated sovereign country in the world (approx. **2.1 persons / sq km**).
8. **International Women's Day** is celebrated annually on **8 March**.
9. **World Health Day** is observed globally on **7 April** (commemorating the founding of the World Health Organization in 1948).
10. **World Habitat Day** is celebrated every year on the **First Monday of October** (designated by the UN General Assembly).
11. **World Cities Day** is celebrated annually on **31 October**.
12. **International Youth Day** is observed on **12 August** (National Youth Day in India is on **12 January**, Swami Vivekananda's birthday).
13. **International Day of Older Persons** is celebrated globally on **1 October**.
14. **Universal Health Coverage (UHC) Day** is commemorated annually on **12 December**.
15. **National Consumer Rights Day** is celebrated in India on **24 December**, while **World Consumer Rights Day** is on **15 March**.
16. **Japan** has the highest proportion of elderly citizens (aged 65+) in the world (> 29% of its population).
17. **Zero Population Growth (ZPG)** is achieved when the Crude Birth Rate equals the Crude Death Rate in the absence of net migration.
18. **Sex Ratio at Birth (SRB)** biologically averages approximately **105 male births per 100 female births** globally (or ~952 females per 1000 males).
19. **Sustainable Development Goal 3 (SDG 3)** is dedicated to ensuring **"Good Health and Well-Being for All at All Ages"** by 2030.
20. **Asia**: Contains approximately **60% of the world's population (~4.8 Billion)**. Home to the two population giants: India and China. High density in South Asia, East Asia, and Southeast Asia.
21. **Africa**: Accounts for approximately **18% of the world's population (~1.5 Billion)**. Fastest growing continent globally (TFR ~4.2). Projected to account for more than half of global population growth between now and 2050.
22. **Europe**: Accounts for approximately **9.5% of the world's population (~745 Million)**. Experiencing negative natural growth, sub-replacement fertility, and acute population aging.
23. **North America**: Accounts for approximately **7.5% (~600 Million including Central America/Caribbean; Northern America alone is ~380 Million)**.
24. **South America**: Accounts for approximately **5.5% (~440 Million)**.
25. **Oceania**: Accounts for approximately **0.5% (~45 Million)**.
26. **Highest Density Territories / Micro-States**:
27. **Monaco**: **~26,000 persons / km²** (World's most densely populated sovereign state).
28. **Singapore**: **~8,300 persons / km²**.
29. **Bahrain**: ~1,850 persons / km².
30. **Maldives**: ~1,750 persons / km².
31. **Bangladesh**: **~1,160 persons / km²** (*Most densely populated large country with population $> 10 ext{ Million}$*).

32. **Lowest Density Sovereign Countries**:

33. **Greenland (Autonomous Denmark)**: **0.03 persons / km^2** (Lowest overall territory).

34. **Mongolia**: **~2.1 persons / km^2** (World's least densely populated sovereign nation).

35. **Namibia**: ~3.1 persons / km^2.
