2.1 Urban Morphology & The 74th Constitutional Amendment Act

A. The Demographic Definition of Urban Area in India

Under the Census of India, an Urban Area is defined through a two-fold classification: 1. **Statutory Towns (Administrative Urban)**: - All places with a municipality, municipal corporation, cantonment board, or notified town area committee established under State/Central statute. 2. **Census Towns (Demographic Urban)**: - All other rural places that satisfy **all three criteria simultaneously**: 1. A minimum population of **5,000**. 2. At least **75% of the male main working population** engaged in non-agricultural pursuits. 3. A population density of **at least 400 persons per square kilometer** (1,000 per square mile).

B. Constitutional Governance: 74th Constitutional Amendment Act, 1992

- Passed in December 1992; came into force on **1 June 1993**.

- Inserted **Part IX-A (Articles 243P to 243ZG)** and the **Twelfth Schedule (18 functional items)** into the Constitution of India.
- **Three-Tier Structure of Urban Local Bodies (ULBs)**: 1. **Nagar Panchayat**: For a transitional area (rural-to-urban transition). 2. **Municipal Council (Nagar Palika Parishad)**: For a smaller urban area. 3. **Municipal Corporation (Nagar Nigam)**: For a larger urban area.
- **Key Constitutional Committees**:
- **Wards Committees (Article 243S)**: Mandatory for municipalities having a population of **3 Lakh or more**.
- **District Planning Committee - DPC (Article 243ZD)**: Consolidates plans prepared by Panchayats and Municipalities across the district. At least **four-fifths (80%)** of DPC members must be elected by and from among the elected members of the Zila Panchayat and Municipalities.
- **Metropolitan Planning Committee - MPC (Article 243ZE)**: Mandatory for every metropolitan area with population \ge 10 ext{ Lakh}. At least **two-thirds (66.7%)** of MPC members must be elected by and from the elected members of Municipalities and Chairpersons of Panchayats in the metropolitan area.

2.2 Slums, Informal Settlements, and Urban Challenges

- **Census Definition of Slum**: A compact area of at least **300 population or about 60–70 households** of poorly built congested tenements in unhygienic environments, lacking basic civic amenities (clean drinking water, drainage, sanitation).
- **Three Categories of Slums (Census 2011)**: 1. **Notified Slums**: All specified areas in a town formally notified as slums by State Governments or local authorities under Slum Acts. 2. **Recognized Slums**: Areas recognized as slums by State Governments/ULBs, although not formally notified under legislation. 3. **Identified Slums**: Compact areas identified by census enumerators satisfying slum criteria (300+ people or 60+ households).
- **Slum Demographics in India (2011)**:
- Total Slum Population: **6.55 Crore (17.4% of total urban population)**.
- **Maharashtra** has the largest absolute slum population in India (**1.18 Crore**), followed by Andhra Pradesh (1.02 Cr) and Uttar Pradesh (62.4 Lakh).
- **Dharavi (Mumbai)** is recognized as one of the largest and most densely populated informal settlements in Asia.
