Topic 7 — Education & Press

Covers syllabus (click to expand)

Development of Education | Orientalist (प्राच्यवादी)–Anglicist (आंग्लवादी) Controversy | Serampore (श्रीरामपुर) Mission and Carey | Educational Centres | Asiatic Society of Bengal | Newspapers and Journals | Beginning of Newspapers | Press Control Laws | Editors and Founders | Wood's Dispatch | Hunter Commission | Indian Universities Act | Macaulay's Minute | Sadler Commission | Hartog Committee | Wardha Scheme | National Education Movement | National Council of Education

Sources baked in: NCERT Themes III, Spectrum, Bipan Chandra, Ghatnachakra Purvalokan (Education & Press), UPPCS Prelims 2018–2025 **Weight:** ★★★ — Wood–Hunter–Sadler–Hartog–Sargent order, Asiatic Society founder, UP newspaper places, Archbold trap, press-law sequence **Last verified:** September 2026 gap audit — Macaulay/Wood/Hunter/Sadler/Wardha + press-act ladder confirmed; Sargent Plan + universities founding cards filled; Extra Drill present (no invented mega banks) **Current Affairs:** N/A (historical)

7.0 One clear picture — how British India built (and controlled) schools and papers

Two ladders run side by side: **education policy** (what got taught, and to whom) and **press control** (what got printed, and how freely). Hold both timelines first; every card below plugs into one line.

Phase	Rough years	Method	Key fact
Ambiguous grant	**1813**	₹1 lakh/year, purpose left vague	Charter Act; missionaries also let in
Orientalist vs Anglicist	**1823–35**	Committee of Public Instruction split on how to spend the grant	Ends with **Macaulay's Minute, 1835**
English medium settled	**1835–54**	Downward filtration; no full system yet	Bentinck accepts the Minute
Full ladder	**1854**	Primary → secondary → college → university, grants-in-aid	**Wood's Despatch**; universities follow in **1857**
Primary review	**1882**	Local bodies, private effort encouraged	**Hunter Commission** (Ripon)
Tighter control	**1902–04**	Government grip on university senates	**Raleigh Commission** → **Universities Act 1904** (Curzon)
Nationalist counter-schooling	**1906**	Indians build their own colleges outside government control	**National Council of Education** (Swadeshi, Bengal)

Phase	Rough years	Method	Key fact
University-stage fix	**1917–19**	Intermediate stage carved out; boards of secondary education	**Sadler Commission**
Primary-stage audit	**1929**	Wastage/stagnation flagged; consolidate, don't just expand	**Hartog Committee**
Nationalist alternative	**1937**	Craft-centred, self-supporting schooling	**Wardha Scheme** (Gandhi)
Official post-war blueprint	**1944**	Free compulsory schooling 6–14, 40-year target	**Sargent Plan**
Press phase	Rough years	Method	Key fact
---	---	---	---
Free start	**1780–99**	No formal law yet, but Company hostility to criticism	**Hicky's Bengal Gazette 1780**
Wartime censorship	**1799**	Pre-censorship for fear of French ideas	**Wellesley's Press Act**
Licensing	**1823**	Must hold a licence to run a press	**Adam**; Buckingham deported
Liberation	**1835**	Licence dropped; only a declaration needed	**Metcalfe**, "Liberator of the Press"
Vernacular-only curb	**1878**	Special pre-check on Indian-language papers	**Lytton**; repealed by **Ripon 1882** (रिपन)
Nationalist-era re-tightening	**1908–31**	Sedition-era and civil-disobedience-era controls	**Minto, Hardinge, Irwin** acts

Why both ladders matter together: stems often mix an education-body year with a press-law year in the same chronology question. Keep them on two separate mental tracks so a "1878" never gets mistaken for an education year and a "1882" never gets mistaken for Hunter's report year (Hunter is 1882 too — that is the one real overlap to watch).

> **Logic:** Start every answer from the **phase**, not the isolated year. Macaulay is not the Despatch. Hunter is not Sadler. Hartog is not Sargent. Licensing is not liberation.

7.1 Development of Education — full timeline

- Company interest in Indian education grew after the **Charter Act of 1813**, which set aside **one lakh rupees** a year "for the revival and promotion of literature, and the encouragement of the learned natives... and for the introduction and promotion of a knowledge of the sciences."

- The same **1813 Act** allowed **Christian missionaries** into Company territory for the first time (the "pious clause"), which is why mission schools spread rapidly after this date.
- The wording of the 1813 grant was vague enough that it fed a decade-long fight over *what kind* of learning to fund. That fight is the **Orientalist–Anglicist controversy** (its own full card below).
- **Macaulay's Minute, 1835** settled the fight in favour of English.
- **Wood's Despatch, 1854** laid down a whole ladder from primary school to university.
- **William Adam's Reports (1835–38)** surveyed indigenous vernacular schools in Bengal and Bihar and showed a wide village-school network before the full Wood system — useful background, not a rival to Macaulay's Minute.
- **Universities of Calcutta, Bombay and Madras** were set up in **1857**.
- **Hunter Commission, 1882** looked mainly at **primary education**.
- **Indian Universities Act, 1904** tightened official control (Curzon), building on the **Raleigh Commission, 1902**.
- **National Council of Education, 1906** was the Swadeshi-era nationalist answer to Curzon's controls.
- **Sadler Commission (1917–19)** reviewed **Calcutta University** and higher education.
- **Hartog Committee, 1929** reviewed the growth of education since the 1919 reforms and found rapid but weak primary expansion.
- **Wardha Scheme, 1937** is Gandhi's **Basic Education / Nai Talim**.
- **Sargent Plan, 1944** is the official British post-war education plan.
- Chronological order of major education commissions: Wood (**1854**) → Hunter (**1882**) → Sadler (**1917–19**) → Sargent (**1944**).

> **Logic:** Wood is **1854**, not 1835. Sargent is **1944**, not Hunter. Hartog sits between Sadler and Wardha — **1917–19 → 1929 → 1937 → 1944**.

7.2 Orientalist–Anglicist controversy — full card

Trigger: the **1813 Charter Act's** ₹1 lakh grant did not say whether the money should fund classical Indian learning or English/Western learning. The **General Committee of Public Instruction (from 1823)** in Calcutta split into two camps that fought for over a decade.

The Orientalist camp

- Wanted the grant spent on **Sanskrit, Arabic and Persian** classical learning.
- Pointed to existing institutions worth funding: the **Calcutta Madrasa (1781)** and the **Sanskrit College, Banaras (1791)**, plus new bodies like the **Calcutta Sanskrit College (1824)**.
- Leading voice on the Committee was **H.T. Prinsep**. Earlier European orientalist scholarship (Sir **William Jones**, **H.T. Colebrooke**, **H.H. Wilson**) had already built prestige for Sanskrit and Persian studies through the **Asiatic Society**.
- Their argument: Indians already had rich learned traditions; the Company should patronise, not replace, them.

The Anglicist camp

- Wanted the grant spent on **English** and **Western science**.
- **Charles Grant**, an evangelical Company official, had argued as early as **1792** that English education would spread Christian and Western values along with useful knowledge.
- Surprisingly, some **Indian reformers backed the Anglicists**: **Raja (राजा) Ram Mohan Roy** (राम मोहन राय) wrote to Governor-General (गवर्नर-जनरल) Amherst in **1823** opposing government money for a new Sanskrit college, asking instead for English and scientific instruction. **David Hare** worked in the same direction through Hindu College.
- **Thomas Babington Macaulay**, as Law Member of Bentinck's Council and president of the Committee, wrote the decisive **Minute of 1835** for this camp.

How it ended

- Macaulay's Minute argued that a single good European library was worth more than "the whole native literature of India and Arabia," and pushed for English as the medium of higher instruction.
- He wanted a class of Indians "English in taste, in opinions, in morals, and in intellect" who would in turn spread knowledge downward to the masses — the idea later called **downward filtration**.
- **Bentinck** accepted the Minute on **7 March 1835**. Government funds shifted toward English-medium higher education; Oriental institutions were not abolished but lost the funding fight.
- The debate is **not** the same event as the Minute itself — the Minute is the *resolution*, the controversy is the *decade-long fight* that came before it.

> **Logic:** Grant (1792, early Anglicist voice) → Committee split (from 1823) → Ram Mohan Roy's 1823 letter (Indian Anglicist) → Macaulay's Minute (1835, resolution). Orientalists did **not** want English; Anglicists did **not** want Sanskrit/Arabic/Persian as the medium of higher learning.

7.3 Macaulay's Minute, 1835

- **Thomas Babington Macaulay** was Law Member of Bentinck's Council. He was not a Governor-General.
- His **Minute on Indian Education (2 February 1835)** argued for **English** as the medium of higher education.
- He wanted a class of Indians "English in taste" — the idea later called **downward filtration**.
- **Bentinck** accepted the Minute. Orientalist higher learning lost official favour, though it was not shut down.
- **Wood's Despatch of 1854** is a later, wider plan. It is **not** the Minute.

> **Logic:** Minute = **1835**. Despatch = **1854**. Hunter = **1882**.

7.4 Serampore Mission and William Carey — education outside Company control

Serampore (Frederiksnagore) was **Danish territory** in Bengal, so it sat outside direct Company jurisdiction — this is exactly why missionary education and printing could flourish there before the Company itself opened up.

- **William Carey**, **Joshua Marshman** and **William Ward** are together called the **Serampore Trio**, Baptist missionaries who settled at Serampore from **1800**.
- Before **1813**, the Company generally kept missionaries out of its own territory, fearing they would provoke unrest — that is exactly why the trio worked from **Danish** Serampore instead of Calcutta.
- They set up the **Serampore Mission Press (1800)**, which printed Bibles and grammars in numerous Indian languages and became one of the great early printing operations in India.
- Carey also served from **1801** as a professor of **Sanskrit, Bengali and Marathi** at **Fort William College**, the Company's own institution (Wellesley, 1800) for training young civil servants — so the same man worked inside and outside the Company system at once.
- In **1818** the trio founded **Serampore College**, meant for both theological training and general higher education, open to all faiths and communities.
- A Danish royal charter of **1827** empowered Serampore College to grant its own degrees, making it one of the earliest degree-granting colleges associated with India.
- The Company's **1813 Charter Act** finally let missionaries operate in British India directly, ending the need for a Danish base like Serampore for that purpose.

> **Logic:** Serampore is **Danish**, not French or British — do not confuse it with Chandernagore (चंद्रनगर) (French) or Chinsurah (चिन्सुरा) (Dutch). Carey's Fort William College post and his Serampore College are two separate institutions; keep them apart.

7.5 Wood's Despatch, 1854

- Issued in **1854** by **Sir Charles Wood**, President of the Board of Control, in **Dalhousie's** time.
- It is often called the **Magna Carta of English education in India**.
- It asked for a graded system: primary schools, secondary schools, colleges, and universities.
- It favoured **English** for higher education and **vernaculars** at the lower levels.
- It recommended setting up a **Department of Public Instruction** in each province.
- It supported teacher training (normal schools), vocational instruction, **grants-in-aid** to private schools, and encouragement of **women's education**.
- It proposed universities on the model of **London University** — examining and affiliating bodies rather than only teaching bodies.
- The **1857 universities** at Calcutta, Bombay and Madras followed this design.

> **Logic:** Wood's Despatch is **1854**, under Dalhousie, not under Macaulay's 1835 Minute. Grants-in-aid, universities, female education and vernacular-at-lower-levels are Wood facts, not Hunter facts.

> English was for **higher** studies — **not** as the medium at **all** levels (IAS 2018 trap).

7.6 Hunter Commission, 1882

- The **Hunter Commission** is the **Indian Education Commission of 1882**, chaired by **William Hunter**.
- The Viceroy was **Ripon**.
- Its brief was to review progress since **Wood's Despatch (1854)**, with special attention to **primary education**.
- It recommended the government gradually withdraw from directly managing **secondary and collegiate** education, handing that over to private/missionary bodies with **grants-in-aid**, while focusing state effort and money on primary schooling.
- It proposed **two streams** at the secondary stage: one literary (feeding into university), one more practical/vocational (feeding into trades and administration).
- It also encouraged **female education** and reviewed missionary effort.
- It is **not** the Sadler Commission and **not** the Sargent Plan.

> **Logic:** Hunter **1882** = primary. Sadler **1917–19** = university. Hartog **1929** = primary audit again, but under the Simon Commission umbrella. Sargent **1944** = post-war plan.
>
> [!TIP] **Exam Anchor (UPPCS 2018 Q21):** Education Commission Chronology: **Wood's Despatch (1854)** → **Hunter Commission (1882)** → **Sadler Commission (1917)** → **Sargent Plan (1944)**.

7.7 Indian Universities Act, 1904

- Passed in **1904** under **Lord Curzon**.
- It followed the **Raleigh Commission (1902)**, chaired by **Thomas Raleigh**, which had reviewed university administration.
- It **reduced the size of university senates**, tightened the **affiliation** of colleges to universities, increased **government nominees** on governing bodies, and expanded official **inspection** powers.
- It also provided some grants for university improvement, but nationalists read the Act mainly as a **control** measure, not an expansion measure — critics called it a set of "**Curzon's fetters**" on higher education.
- It is **not** Wood's Despatch and **not** the 1857 university founding Act.

> **Logic:** Universities Act = **Curzon, 1904**, backed by the **Raleigh Commission, 1902**. First three universities = **1857**.

7.8 Sadler Commission, 1917–19

- Also called the **Calcutta University Commission**, chaired by **Michael Sadler**. Indian members included **Ashutosh Mukherjee** and **Ziauddin Ahmad**.
- Appointed in the time of Viceroy **Chelmsford** to review the problems of **Calcutta University** and, by extension, Indian higher education generally.
- It recommended carving out a separate **intermediate stage** (roughly two years after school) so that university proper began after 12 years of schooling plus intermediate, not straight after matriculation.
- It recommended **Boards of Secondary and Intermediate Education** to run this stage outside direct university control.
- It pushed for more **residential, teaching universities**, a full-time **Vice-Chancellor**, and expansion of **women's and professional/technical education**.

> **Logic:** Sadler = **university-stage** reform, unlike Hunter's primary focus and Hartog's primary-wastage focus.

7.9 Hartog Committee, 1929

- Formally the **Auxiliary Committee on Education**, appointed alongside the **Simon Commission** (साइमन कमीशन), chaired by **Sir Philip Hartog**.
- Its job was to review how much education had actually grown since education became a **transferred, provincial subject under the Montagu–Chelmsford reforms of 1919**.
- Its central finding: primary education had expanded rapidly in raw (रॉ) numbers but with poor quality — huge **wastage and stagnation**, meaning most children who joined primary school dropped out before finishing it and never became **literate for life**.
- Its main recommendation was to **consolidate rather than keep expanding** primary schooling — spend on making existing primary schools work, instead of opening more weak ones.
- At the secondary stage, it recommended **diversifying** the curriculum so that not every secondary student was funnelled toward a university degree; some streams should point toward vocational and practical careers.
- It sits chronologically **after Sadler (1917–19)** and **before Wardha (1937)**.

> **Logic:** Hartog = **1929**, tied to the **Simon Commission**, primary-stage wastage. Do not confuse with Hunter (1882, also primary, but half a century earlier and not part of Simon Commission).

7.10 Wardha Scheme, 1937

- It was adopted (अंगीकृत) in **1937** after the Wardha conference.
- **Gandhi** (गांधी) is the moving spirit.

- **Zakir Husain** headed the committee that worked out the scheme.
- It is **Basic Education** or **Nai Talim**.
- Pupils learned through a productive craft, the mother tongue, and self-supporting school work.
- It is a **nationalist** scheme, not a British official plan.
- Do not mix it with the **Sargent Plan of 1944** or the earlier **National Council of Education of 1906** — the NCE was about literary/technical colleges outside government control; Wardha is about craft-centred primary schooling.

> **Logic:** Wardha = **1937, Gandhi**. Sargent = **1944, official**. NCE = **1906, Swadeshi colleges**.

7.11 Sargent Plan, 1944

- The **Sargent Plan** was drafted by **John Sargent**, Educational Adviser to the Government of India, and issued through the **Central Advisory Board of Education** in **1944**.
- It proposed free and compulsory education for the age group **6–14**, with a roughly **forty-year** target for full coverage.
- It also sketched a ladder of nursery, junior basic, senior basic, high school and university stages, plus technical and adult education.
- It is a late-colonial **official** blueprint, not Gandhi's **Wardha / Nai Talim** scheme of **1937**.
- Chronology trap: Sargent comes **after** Hartog (**1929**) and Wardha (**1937**), and **after** Sadler (**1917–19**).

> **Logic:** Sargent = **1944, official, 6–14 compulsory**. Wardha = **1937, Gandhi, craft-centred**. Do not swap the two.

7.12 Universities founded under Wood's design

- **Wood's Despatch (1854)** proposed universities on the **London University** affiliating model.
- The first three modern universities opened in **1857**: **Calcutta, Bombay and Madras**.
- They began mainly as **examining and affiliating** bodies for colleges, not as single residential teaching universities.
- Later foundations often asked: **Punjab University (1882)** and **Allahabad University (1887)**.
- Do not date **Allahabad** (इलाहाबाद) or **Punjab** to **1857**. Do not treat the **Indian Universities Act, 1904** as the founding law of the 1857 universities — that Act tightened control under Curzon.

> **Logic:** First three universities = **1857**. Allahabad = **1887**. Punjab = **1882**. Universities Act = **control, 1904**, not founding.

7.13 National Education Movement and the National Council of Education, 1906

- The movement grew during **Swadeshi (1905–06)** as a protest against Curzon's controls (including the **1904 Universities Act**) and as a boycott (बहिष्कार) of official colleges.
- **Rangpur National School** opened **8 November 1905** as an early national-education milestone. The **National Council of Education (NCE)** was organised in **Bengal on 15 August 1906**, was the organised expression of this movement — a body meant to run literary and scientific/technical education entirely **free of government control**.
- **Satish Chandra Mukherjee** was a key founder-organiser of the NCE; **Rashbihari Ghosh** funded it generously.
- The NCE ran the **Bengal National College** — **Aurobindo (अरविंद) Ghosh** served as its first principal — and the **Bengal Technical Institute**, an early technical-education wing.
- The Bengal Technical Institute later grew, over decades, into what became **Jadavpur University**.
- Later national experiments include **Santiniketan / Visva-Bharati** (Tagore) and the national-college stream around **Jamia Millia Islamia**.
- Banaras Hindu University and Aligarh Muslim University as centres are taught with the educational-centres list below; they are not NCE institutions.
- This movement is **not** the same as **Wardha Basic Education (1937)** — NCE built alternative colleges; Wardha redesigned primary-school method.

> **Logic:** National Council of Education ↔ **1906, Bengal, Swadeshi**. Wardha ↔ **1937, Gandhi, craft-based primary**.

7.14 Educational Centres and Teachers

- **Warren Hastings** founded the **Calcutta Madrasa (~1780–81)**.
- **Jonathan Duncan** founded the **Sanskrit College, Banaras, in 1791**. He did **not** found the Asiatic Society.
- **Wellesley** founded **Fort William College in 1800** to train Company civilians in Indian languages and administration; **William Carey** taught Sanskrit, Bengali and Marathi there from 1801.
- **Hindu College, Calcutta**, opened in **1817**. It later became Presidency College. **David Hare** and Indian patrons backed it.
- **Vidyasagar** (विद्यासागर) was Principal of the **Sanskrit College, Calcutta**.
- **Serampore College (1818)** was founded by the Baptist missionary trio **Carey, Marshman and Ward** on Danish territory; it could grant its own degrees from **1827**.
- The universities of **Calcutta, Bombay and Madras** were founded in **1857**.
- **Punjab University** dates to **1882**.
- **Allahabad University** dates to **1887**.
- **Sir Syed** founded **MAO College, Aligarh, in 1875**. It became **AMU in 1920**.
- **Annie Besant (बेसेंट)** founded **Central Hindu College, Banaras**.
- **Madan Mohan Malaviya (मालवीय)** developed it into **BHU in 1916**.

- **Muir Central College, Allahabad**, later linked to Allahabad University.
- **Bengal National College (1906)** and the **Bengal Technical Institute** ran under the **National Council of Education** — see the National Education Movement card above.
- Calcutta Madrasa is commonly dated **1780–81** under **Warren Hastings** for Muslim law and related subjects (graduates often worked as interpreters). Do not put it at Madras/Bombay/Aligarh.
- **Charles Wilkins** produced the first English translation of the **Bhagavad Gita** (भगवद्गीता) (Hastings wrote a preface). **Sir William Jones** translated Kalidasa (कालिदास)'s **Abhijnanashakuntalam** (अभिज्ञानशाकुन्तलम्) into English (**1789**) and ran *Asiatic Researches*.
- **Nathaniel Halhed** published a **Bengali grammar (1778)**. **Michael Madhusudan Dutt** was offered membership of the **Royal Asiatic Society of Paris**.
- **Hindu College, Calcutta (1817)** was backed by **Raja Ram Mohan Roy** together with **David Hare** and **Alexander Duff** — do not give the college only to Derozio or Vidyasagar.
- Founding order trap: **Hindu College 1817** → **Delhi College 1824** → **Mayo College Ajmer (अजमेर) 1875** and **MAO Aligarh 1875**.
- **D.K. Karve** opened a widows' home at Poona (**1896**) and the Indian Women's University stream at Bombay (**1916**); he received the **Bharat Ratna (भारत रत्न) (1958)**.
- **New English School / Deccan Education Society (Pune, 1880s)**: **V.K. Chiplunkar, B.G. Tilak, G.G. Agarkar, M.B. Namjoshi**. **M.G. Ranade** supported as a **patron**, not as a core founder.
- **Madan Mohan Malaviya** pressed for religious teaching in Indian universities; he was BHU Vice-Chancellor **1919–39**. **Lord Hardinge** laid BHU's foundation stone (**4 Feb 1916**). **Annie Besant's Central Hindu College (1898)** fed into BHU.
- **Raleigh / University Commission (1902)** under Curzon included Indian members **Syed Hussain Bilgrami** and **Justice Gurudas Banerjee (बनर्जी)** — not Tilak/Gokhale (गोखले).
- **Sadler Commission (1917)** Indian members included **Ashutosh Mukherjee** and **Ziauddin Ahmad**; it stressed fixing **secondary** standards before university reform.

Teachers and administrators — quick names table

Person	Linked institution	tag
Jonathan Duncan	Sanskrit College, Banaras (1791)	Did **not** found Asiatic Society
David Hare	Hindu College, Calcutta	Secular education campaigner
J.E.D. Bethune	Bethune School, Calcutta	Opened a pioneering girls' school
Ishwar Chandra Vidyasagar	Sanskrit College, Calcutta	Principal; reformer
William Carey	Fort William College + Serampore College	Both a Company teacher and an independent missionary founder
William A.J. Archbold	MAO College Aligarh; Government College Dacca; Muir Central College Allahabad	**Not** Principal of Lahore College

> **Logic:** Duncan = Banaras Sanskrit College, **not** Asiatic Society. Jones founded the Society. Archbold ≠ Lahore.

PYQ Reference — UPPCS Prelims 2024, Q136

> [!TIP] **Exam Anchor (UPPCS 2024 Q136): William A.J. Archbold** was Principal of Government College (Dacca), MAO College (Aligarh), and Muir Central College (Allahabad). He was **never** Principal of Lahore College.

7.15 Asiatic Society of Bengal

- Founded in **1784** at Calcutta.
- **Founder-president = Sir William Jones**. Through *Asiatic Researches* the Society publicised India's past; Jones's English *Shakuntala* (**1789**) is a standard Society-linked fact. **Wilkins's English Gita** is a related oriental-learning fact (Hastings's preface).
- It was founded in the time of **Warren Hastings**. Hastings was a scholar of Indian languages, but he **declined** the presidency in Jones's favour.
- **Sir William Jones** was the founder-president, not Hastings, Duncan or Bentinck.
- Hastings was a scholar of Indian languages but his scholarship does **not** explain why he declined the presidency in Jones's favour.

> **Logic:** Founder = **Jones**. Hastings **declined**. Duncan = Banaras college.
>
> [!TIP] **Exam Anchor (UPPCS 2021 Q40):** The **Asiatic Society of Bengal** was founded in 1784 by **Sir William Jones** (Judge of Calcutta Supreme Court). Warren Hastings patronized the society but declined the presidency in Jones's favor.

PYQ — UPPCS Prelims 2019, Q22

Assertion (A): The Asiatic Society of Bengal was established in the period of Warren Hastings and he modestly declined the offer of Presidentship of that learned body in favour of Sir William Jones.

Reason (R): Warren Hastings was himself a great scholar and an ardent orientalist who used to encourage the study of Sanskrit, Persian and Arabic.

A. Both (A) and (R) are true and (R) is the correct explanation of (A) B. Both (A) and (R) are true, but (R) is not the correct explanation of (A) C. (A) is true, but (R) is false D. (A) is false, but (R) is true

Show answer

Ans: B — Both (A) and (R) are true, but (R) is **not** the correct explanation of (A). Hastings declined the presidentship out of modesty/deference — his being an orientalist scholar is a true but separate fact, not the causal reason for stepping aside. (Official UPPCS 2019 key = B.)

7.16 Beginning of Newspapers and the Press-Control Sequence

- The first newspaper in India is **Hicky's Bengal Gazette (1780)**, Calcutta, by **James Augustus Hicky**. It was quickly shut down after Hicky's attacks on officials.
- Early nineteenth-century papers followed in Bengali, Persian, Marathi, Hindi and English; the Company often eyed them with suspicion.

The control sequence, in order

Step	Year	Ruler / official	What it did
Censorship of Press Act	**1799**	**Wellesley**	War-time **pre-censorship** of all printed matter, driven by fear of French Revolutionary ideas reaching India
Licensing Regulations	**1823**	**John Adam** (acting GG)	Required a **licence from the Governor-General-in-Council** to keep a press; used to deport editor **James Silk Buckingham** of the *Calcutta Journal*
Press Act ("liberation")	**1835**	**Charles Metcalfe**	**Repealed the 1823 licensing rule**; only a simple declaration of press location was needed — Metcalfe earned the title **"Liberator of the Indian Press"**
Licensing Act	**1857**	**Canning**	Temporary wartime licensing during the **Revolt of 1857**; lapsed after the emergency
Vernacular Press Act	**1878**	**Lytton**	Special curbs aimed only at **Indian-language** papers; required advance proof-checking
Repeal of the Vernacular Press Act	**1882**	**Ripon**	Removed Lytton's curbs
Newspapers (Incitement to Offences) Act	**1908**	**Minto**	Targeted revolutionary/terrorist-linked writing after Swadeshi-era violence
Indian Press Act	**1910**	**Minto / Hardinge**	Revived pre-censorship-style powers, wider than the 1878 Act
Press (Emergency Powers) Act	**1931**	**Irwin**	Curbed the press during the **Civil Disobedience** (सविनय अवज्ञा) movement

- **Amrita Bazar Patrika** switched from Bengali to English overnight so that the Vernacular Press Act would no longer cover it.
- Remember the **1878 ≠ 1857** trap: the Vernacular Press Act is Lytton's, two decades after Canning's temporary wartime licensing.

> **Logic:** First paper = **Hicky, 1780**. Licensing = **Adam 1823**. Liberation = **Metcalfe 1835**. Vernacular Press Act = **Lytton 1878**, repealed by **Ripon 1882**, not the other way round.

7.17 Newspapers and Journals

UP match home. The local `pyq/2022` file prints "Kesari"; the standard paper is **Swadesh**.

Paper	Place
Swadesh	**Gorakhpur** (गोरखपुर)
Bharat Bandhu	**Hathras**
Satyawadi	**Agra** (आगरा)
Shakti	**Almora** (अल्मोड़ा)

Tilak's **Kesari** is **Pune**, not a town in that List-II.

Other high-yield papers

Paper	Place / note
Bengal Gazette	Calcutta, 1780
Sambad Kaumudi	Raja Ram Mohan Roy
Amrita Bazar Patrika	Calcutta
The Hindu	Madras
Kesari / Maratha (मराठा)	Tilak, Pune
Bengalee	Surendranath Banerjee
Indian Opinion	Gandhi, South Africa
Young India / Harijan (हरिजन) / Navajivan	Gandhi
New India / Commonweal	Annie Besant
Hindustan Times / Independent	later nationalist press

> **Logic:** For 2022, fact **Swadesh–Gorakhpur**, not Kesari–Pune.

PYQ — UPPCS Prelims 2022, Q117

Match List-I with List-II and select the correct answer from the code given below.

> [!TIP] **Exam Anchor (UPPCS 2022 Q117):** UP Newspaper Publication Places: **Swadesh** ↔ Gorakhpur; **Bharat Bandhu** ↔ Hathras; **Satyawadi** ↔ Agra; **Shakti** ↔ Almora.

7.18 Editors and Founders

Paper / journal	Editor / founder
Bengal Gazette	James Augustus Hicky
Sambad Kaumudi / Mirat-ul-Akbar	Raja Ram Mohan Roy
Calcutta Journal	James Silk Buckingham (deported under the 1823 licensing rule)
Rast Goftar	Dadabhai Naoroji (नौरोजी) (associated)
Kesari and Maratha	Bal Gangadhar Tilak (बाल गंगाधर तिलक)
Young India, Harijan, Navajivan	M.K. Gandhi
New India, Commonweal	Annie Besant
Bengalee	Surendranath Banerjee
Amrita Bazar Patrika	Ghosh brothers (Sisir / Motilal Ghosh line)
The Hindu	G. Subramania Iyer (founding line)
Al-Hilal	Abul Kalam Azad
Bahishkrit Bharat	B.R. Ambedkar (बी.आर. अम्बेडकर)
Indian Opinion	Gandhi (ed. Mansukhlal Nazar first)
Ghadar	Ghadar Party (Hardayal / Bhakna stream); first Urdu
Free Hindustan	Tarak Nath Das
The Pioneer	George Allen
Independent	Motilal Nehru
Qaumi Awaz	Jawaharlal Nehru (जवाहरलाल नेहरू) / Rafi Ahmed Kidwai
Som Prakash	Ishwar Chandra Vidyasagar line
Hindoo Patriot	Girish Chandra Ghosh → Harish Chandra Mukherjee

- Editor questions are usually **person ↔ paper**.
- Place questions for UP papers sit in the newspaper table above.
- Do not give Tilak's Kesari (केसरी) the Gorakhpur slot.

> **Logic:** Tilak = Kesari (Pune) (केसरी). Gandhi = Young India / Harijan. Besant = New India. Buckingham = Calcutta Journal, deported 1823.

Press and paper extras (match home)

Paper / act	Fact
Portuguese press	First press in Asia at **Goa, 1556**
Free Hindustan	**Tarak Nath Das** (North America / Vancouver line)
