C.0 How to solve "Arrange the events"

- Sort by **year first**. If two sit in the same year, use the **month / known sequence** (example: Cripps before Quit India in 1942; Communal Award before Poona Pact in 1932).
- Prefer **phase clusters**: expansion wars → Acts → 1857 → moderate nationalism → Swadeshi → Gandhi early → mass movements → transfer of power.
- Eliminate options that reverse a **fixed pair** you already know (Plassey before Buxar; 1905 before 1909; 1929 before 1930).
- UP papers often mix **one UP event** into an all-India ladder (Chauri Chaura, Kakori, Allahabad Proclamation).

> **Logic:** Chronology stems test **relative order**, not long essays. One wrong swap usually kills the whole code.

Cornwallis–Shore pause vs Wellesley expansion

- **Cornwallis** and **John Shore** preferred **non-intervention** when costly forward wars could be avoided.
- Cornwallis still fought when Company allies were hit — the **Third Anglo-Mysore War** is his expansion war, not Shore's quiet phase.
- **Wellesley (1798–1805)** reversed the pause with open **Subsidiary Alliance** diplomacy and war.
- Wellesley's tools were British troops, subsidy or land cession, and a controlling **Resident**.
- Cornwallis–Shore = hold and settle when possible. Wellesley = bind courts and smash rivals who refuse.
- Wellesley fought the **Fourth Mysore War** and the **Second Maratha War**. He was recalled in **1805** because the wars cost too much.
- **Lord Hastings** (not Warren Hastings) fought Nepal, the Pindaris and the Third Maratha War.
- **Ellenborough** annexed **Sindh in 1843** with field command under **Sir Charles Napier**.
- **Hardinge** fought the First Sikh War.
- **Dalhousie** annexed **Punjab in 1849** and **Awadh in 1856**.
- The **Vellore Mutiny (1806)** sits between Wellesley's recall and the Nepal war on chronology charts.

> **Logic:** Wellesley did **not** invent Lapse. Dalhousie–Lapse is a standing match.

- **Lytton's Proud Reserve** was the named **Forward Policy** of the 1870s — assert influence inside Afghan politics rather than wait.

3.6 Lord Cornwallis (1786–1793; short second term 1805)

Permanent Settlement, 1793 (GG tag only)

- He introduced the **Permanent Settlement of 1793** in **Bengal, Bihar and Orissa**. Land revenue was fixed **in perpetuity** with the zamindar (ज़मींदार) treated as proprietor.
- The plan was shaped with **John Shore's** revenue work; Cornwallis enacted it. Zamindars who failed to pay risked losing the estate under the harsh payment rules (often remembered as the **sunset** rule).

- Cultivators stayed **tenants**; they did **not** get ownership under this settlement. The Company gained a **stable cash demand**.
- **Madras** was **not** Permanent Settlement country — **Ryotwari** (Munro (मुनरो)) and other systems dominate there. **Mahalwari** (महलवाड़ी) belongs mainly to North India.
- Full compare of Permanent Settlement / Ryotwari / Mahalwari (shares, revision, peasant classes) lives in the British Administration and Economy chapter — keep only the Cornwallis tag here.

System / Economic Concept	Core Geographical Coverage, Founders & Rules	Official High-Yield Exam Anchors
Permanent Settlement (1793)	• Introduced by **Lord Cornwallis** in Bengal, Bihar, Orissa, and Varanasi (UP); covered ~**19% of British India**. • Alternative names: *Istamrari, Jagirdari, Malguzari, Bishwedari*. • **Proprietorship & Shares:** Landlords (*Zamindars*) recognized as hereditary proprietors; required to surrender **10/11th** of collection to the Company and retain **1/11th** as remuneration. • **Sunset Clause:** If revenue was not paid into the government treasury by sunset of the stipulated date, the estate was auctioned (*Sunset Law*). • **Absence of Patta Control:** Zamindars failed to issue lease deeds (*pattas*) to cultivating peasants due to the absence of state supervision, leading to rampant sub-infeudation and increased litigation. • **Bengal Tenancy Act (1885):** Enacted to define and protect occupancy tenant rights against rack-renting.	Zamindars as owners (10/11 : 1/11)

System / Economic Concept	Core Geographical Coverage, Founders & Rules	Official High-Yield Exam Anchors
Ryotwari System (1792 / 1820)	• Devised by **Captain Alexander Read** and **Sir Thomas Munro**. • First tested in **Baramahal district (Tamil Nadu)** in 1792; formally established across Madras Presidency in 1820 by Munro; later extended to Bombay, East Bengal, Assam, and Coorg; covered ~**51% of British India**. • **Peasant Ownership:** Individual cultivator (*Ryot*) recognized as direct proprietor with rights to sell, mortgage, and transfer land, paying revenue directly to the state. • **Strict Assessment:** Lands surveyed and assessed based on estimated soil productivity (set between 45%–55%); **no automatic exemption** granted for drought, flood, or crop failure; ruthless collection forced peasants into the trap of moneylenders (*Sahukars*).	Direct peasant settlement (51% area)
Mahalwari System (1822)	• Devised by **Holt Mackenzie** (Regulation VII of 1822) and reformed by Robert Merttins Bird (1833). • Implemented in North-Western Provinces (UP), Central Provinces, and Punjab; covered ~**30% of British India**. • **Village Unit:** Revenue unit was the village (*Mahal*); the entire village community was held jointly responsible (*joint and several liability*) for payment, collected via the village headman (*Talukdar / Lambardar*).	Village community unit (30% area)
Traditional Agrarian Systems Alignment	• **Jajmani:** Traditional reciprocal service-relationship system in **North India** between agriculturalists and village artisanal castes. • **Bara Balute:** Traditional 12-village servant/artisan system in **Maharashtra**. • **Mirasi:** Hereditary village landholding system in **Tamil Nadu** (*Mirasidars* acted as designated revenue payers under Ryotwari). • **Adade:** Hereditary artisan service-remuneration system in **Karnataka**.	Regional socio-economic institutions
Home Charges Components	Total expenditure incurred in England by the Secretary of State for India on behalf of the Indian government; comprised: 1. Dividends to EIC shareholders. 2. Interest on public debts raised in London. 3. Interest on guaranteed capital invested in Indian Railways. 4. Civil and military store purchases made in England. 5. Pensions, furloughs, and gratuities payable to retired British civil and military personnel. *(Note: Funds utilized for waging imperial wars outside India were EXCLUDED from Home Charges).*	External Drain Components
Imperial Preference	Discriminatory fiscal policy granting special tariff concessions on British manufactured imports into India (subject to nominal or zero duty), while Indian handcrafted and manufactured goods faced prohibitive protective tariffs in the British home market.	Trade exploitation mechanism
Deindustrialization & Ruralization	• Process commenced in **1813** when the Charter Act abolished EIC's trade monopoly (except tea and China trade); aggravated in **1833** when EIC was made a purely administrative body. • Ruined traditional Indian handloom and handicraft industries without modern domestic factories to absorb displaced weavers, resulting in forced ruralization and excessive pressure on agriculture. • Wealthy Indian elites preferred safe investment in landed estates (*Zamindaris*) rather than risky capital-intensive heavy industries.	Destruction of traditional handicrafts
Assam Tea Company (1839)	Formed in England in **1839 CE** with a capital of Rs. 5 lakh; established headquarters at **Nazira (Assam)**; oldest commercial tea plantation company in India.	Earliest plantation corporate
Punjab Land Alienation Act (1900)	Enacted by the British administration to prevent the alienation and mortgage of agricultural lands from hereditary peasant tribes to urban non-agricultural moneylenders (*Sahukars*).	Protection of cultivating classes
Pioneer of South Indian Irrigation	**Sir Arthur Cotton:** Renowned British military and irrigation engineer who designed the monumental Godavari and Krishna delta anicuts (weirs), celebrated as the ***"Pioneer of Irrigation Works in South India"***.	Modern canal irrigation

System / Economic Concept	Core Geographical Coverage, Founders & Rules	Official High-Yield Exam Anchors
Commercialization of Agriculture	19th-century transformation forced Indian farmers to produce export-oriented industrial cash crops (indigo, raw cotton, jute, opium, tea, sugarcane, oilseeds) rather than food grains, disrupting rural food security and intensifying famine vulnerability.	Transition to cash crops
Drain of Wealth Propounders	• **Dadabhai Naoroji ("Grand Old Man of India"):** First to systematically compute India's national per-capita income; declared the economic drain the ***"evil of all evils"*** and primary cause of catastrophic famines; formulated in papers (*England's Debt to India* 1867, *The Wants and Means of India* 1870) and landmark book ***Poverty and Un-British Rule in India*** (**1901**). • **R.C. Dutt (ICS officer):** Published ***The Economic History of India*** (1901/1906), asserting that nearly one-half of India's annual net revenue was drained overseas. • **Other Economic Critics:** Justice M.G. Ranade, G.V. Joshi, G. Subramania Iyer (editor of *The Hindu*), and P.C. Ray. • **INC Official Adoption:** Indian National Congress formally embraced the Drain Theory at its **1896 Calcutta session**. • **Dissent: Sir Syed Ahmad Khan** did not accept the Drain Theory, believing Muslim educational and social advancement depended entirely on imperial British stability. • **Karl Marx's Critique:** Declared in his London dispatches that British colonial economic exploitation of India was *"disgusting"*.	Intellectual critique of colonialism

Civilian vs sepoy strands

Strand	Who rose	Where it shows clearest	What to remember
Sepoy	Bengal Army soldiers over pay, promotion, overseas service and the cartridge	Meerut → Delhi march; Barrackpore spark	British writers stressed this strand alone and named it a **Sepoy Mutiny**
Civilian	Peasants, taluqdars, artisans, displaced courts and townspeople	**Awadh / Lucknow**, Kanpur hinterland, parts of Bundelkhand and Bihar	Annexation, revenue and estate loss drove non-military crowds into the rising

8.9 Tribal Revolts and Tribal Leaders

Other tribal / frontier risings (match extras)

Pagal Panthi (1820s, Sherpur / Mymensingh)

- *Cause:* Zamindars pressed rent and dues on Garo (गारो)–Hajong peasants in the Sherpur–Mymensingh tract.
- *Course:* A religious-agrarian sect under **Karam Shah**, then **Tipu Shah**, organised peasant resistance against the zamindars.

- *Result:* The rising stayed a local agrarian-religious protest, remembered mainly as a match-list leader tag.

Chuar rising (late eighteenth century, peaked 1798–99)

- *Cause:* Dispossessed jungle zamindars and tribal paiks lost land and livelihood as the Company tightened revenue in the Jungle Mahals.
- *Course:* Armed bands under leaders such as **Durjan Singh** raided the Midnapore–Bankura belt.
- *Result:* Company forces suppressed the rising by the turn of the century.

Bhil rising, Khandesh (~1818–31)

- *Cause:* The Maratha (मराठा) collapse and Company pacification measures disrupted Bhil autonomy in Khandesh.
- *Course:* Bhil chiefs, including **Sewaram**, resisted Company control through the 1820s.
- *Result:* Company control was gradually established. A **later, separate** Bhil satyagraha followed under **Govind Guru (गुरु)** at **Mangarh, 1913**, in the Banswara–Sunth belt.

Khond rising, Ghumsar (mid-nineteenth century)

- *Cause:* Colonial interference with Khond land rights and suppression of *mariah* (human sacrifice) rites angered the community.
- *Course:* **Chakra Bisoi** led resistance in the Odisha hills / Ghumsar tract.
- *Result:* The rising was contained by colonial forces; it remains a leader-tag fact for the Khond hills.

Ramosi rising (1820s, Western Ghats (पश्चिमी घाट))

- *Cause:* The fall of the Peshwa (पेशवा) left Ramosi hill-watch communities without their traditional livelihood and status.
- *Course:* **Umaji Naik** led Ramosi unrest against the new British administration.
- *Result:* The rising was suppressed; Umaji Naik was later captured and executed.

Wahabi (anti-British edge — full stream in Topic 6)

- *Cause/Course:* **Sayyid Ahmad of Rae Bareli** built a militant revivalist network (inspired in India by **Shah Waliullah's** lineage of reform). He briefly held **Peshawar (~1830)** and died at **Balakot (1831)**. After his death **Patna** became the main Indian centre (Inayat Ali, Wilayat Ali and others).
- *Result:* A long underground challenge to Company power; do not confuse with Aligarh (अलीगढ़) loyalism.

Faraizi (Bengal)

- *Cause:* **Haji Shariatullah** of **Faridpur** founded the Faraizi sect for radical religious–social change among Bengal Muslims.
- *Course:* Son **Dudu Miyan** organised followers against English and zamindar pressure (**~1818–1862**).
- *Result:* Many followers later merged into the Wahabi stream.

Velu Thampi (Travancore)

Vasudev Balwant Phadke / Ramosi Krishak Jatha

- *Cause:* Early revolutionary (क्रांतिकारी) anger at colonial rule in western India.
- *Course:* **Phadke (1845–83)** organised Ramosi hill-people into a fighting force and founded a **Ramosi farmers' group**.

- *Result:* He was captured and died in custody (**1883**). Keep him distinct from Umaji Naik's earlier Ramosi unrest.

Gadakari rising (Kolhapur, 1844)

- *Cause:* Hereditary Maratha fort servants (*gadakaris*) faced harsh revenue, loss of army (सेना) berths and *mamlatdar* control of land.

9.3 Establishment of the Indian National Congress

Safety Valve Theory vs National Awakening view (राष्ट्रीय जागरण)

	Safety Valve Theory	National Awakening view
Core claim	Hume, with hints from Viceroy **Dufferin**, wanted an organised, loyal outlet for educated Indian discontent so it would not turn revolutionary	Congress was the natural culmination of decades of political work by pre-1885 associations, the press and English education
Who argues it	**Lala Lajpat Rai** first floated it; **R. Palme Dutt** later gave it a sharper Marxist edge	Most nationalist historians (Bipan Chandra and others); **William Wedderburn's** biography of Hume defends his sincerity
Evidence used	Hume's own private hints about secret reports of unrest reaching the government; Congress's early loyalty to the British connection	Growth of the Indian Association, Poona Sarvajanik Sabha, Bombay and Madras bodies **before** 1885; Indians used Hume's organisational skill for their own ends
How to treat it	A **theory about intent**, not a proven fact — treat it as one interpretation	The dominant classroom view: Congress channelled a **genuine, already-rising** national consciousness

Common Traps — Don't Fall For These

1. **Hume was first President** → **W.C. Bonnerjee**; Hume organised.
2. **Indian Association = 1866** → **1876**; 1866 = **East India Association**.
3. **East India Association = Banerjee / Calcutta** → **Naoroji / London**.
4. **Tilak presided at Surat** → he **never** presided over any INC session.
5. **Gokhale never presided** → he did, **Banaras 1905**.
6. **Poverty and Un-British Rule = 1900** → **1901**.
7. **Lucknow Pact = 1911** → **1916**. 1911 = partition revoked + capital to Delhi.
8. **Moderates A/R trap** → Reason does **not** explain Assertion; both can be true without R explaining A.
9. **Tilak supported Age of Consent 1891** → he **opposed** it; Malabari advocated it.
10. **Bombay Presidency Association = 1866** → **1885**.
11. **Besant = 1916 Lucknow President** → Besant = **1917 Calcutta**; 1916 = **A.C. Majumdar**.
12. **A Nation in Making = Lajpat Rai / Gokhale** → **Surendranath Banerjee**.
13. **Surat Split = 1906** → **1907**; 1906 = Calcutta, Naoroji, Swaraj.
14. **First Muslim President = Naoroji** → **Badruddin Tyabji, 1887**.

15. **Early Congress had no economic policy** → drain, poverty and military cuts were central.
16. **First woman President = Sarojini** → **Besant 1917**; Sarojini = first **Indian** woman **1925**.
17. **Gandhi President = Lahore** → **Belgaum 1924 only**. Lahore 1929 = **Nehru + Purna Swaraj**.
18. **Safety Valve = a proven fact** → it is a **theory**, most linked to **Lala Lajpat Rai**; nationalist historians see Congress as a genuine national awakening.
19. **Lajpat Rai's 1907 Mandalay = Tilak's 1908 Mandalay** → different penalties (six-month deportation vs six-year sedition sentence) and different years.
20. **Lal–Bal–Pal all from one province** → **Lal = Punjab, Bal = Maharashtra, Pal = Bengal** — three separate bases.
21. **Moderates had no economic programme** → drain, land revenue, military cuts, tariff protection and ICS reform were all on their checklist.
22. **First political organisation = Indian Association 1876** → **Zamindari / Landholders' Society, 1838**.
23. **Bombay Presidency Association = Naoroji alone** → **Mehta, Telang, Tyabji (1885)**.
24. **First session = Calcutta** → **Bombay 1885** (planned Poona, shifted for cholera).
25. **Dufferin praised Congress warmly** → he mocked it as a **microscopic minority**.
26. **Father of Indian Unrest = Gokhale / Curzon** → **Tilak** (**Valentine Chirol**).
27. **Landholders Society = 1844** → **1838**.
28. **British Indian Association President = Banerjee** → **Radhakant Deb**.
29. **Curzon's "peaceful demise" = safety valve theory** → Curzon wanted Congress to die; **safety valve** is the Lajpat Rai / Hume-vent reading.
30. **Poona Commons petition 1875 = Indian Association** → **Poona Sarvajanik Sabha**.
31. **Bankipur 1912 President = Rajendra Prasad** → **R.N. Mudholkar**.
32. **Congress President at Independence = Nehru / Gandhi** → **J.B. Kripalani**.## Complete PYQ Bank — Ghatnachakra Political Organisations before Congress (30 Questions)
