Q1. With reference to VB-G RAM G, which of the following statements is/are correct?

1. It provides a wage employment guarantee of up to 125 days.
2. It came into force from 1 July 2026 and replaces the older MGNREGS framework.
3. The national launch was held at Mukkavaripalli in Tirupati district, Andhra Pradesh.

Select the correct answer from the code given below:

A. 1 and 2 only B. 2 and 3 only C. 1 and 3 only D. 1, 2 and 3

▼ Show answer

Logic: VB-G RAM G vs MGNREGA — days, date, replacement (scheme false-statement machine). **Ans: D.** All three are core facts. Trap variant: keeping "100 days" or shifting force date to 15 August.

Q2. Given below are two statements, one is labelled as Assertion (A) and the other as Reason (R).

Assertion (A): Under VB-G RAM G, the rural wage employment guarantee rises to 125 days.

Reason (R): For most states, VB-G RAM G follows about a 60:40 Centre–State funding pattern.

Select the correct answer from the code given below:

A. Both (A) and (R) are true, but (R) is not the correct explanation of (A) B. (A) is false, but (R) is true C. (A) is true, but (R) is false D. Both (A) and (R) are true and (R) is the correct explanation of (A)

▼ Show answer

A/R logic: A tests day-count change; R tests funding pattern — both true but R does not explain why days rose to 125. **Ans: A.** Both facts are true, but funding ratio does not explain the rise from 100 to 125 days. Trap: picking D because both lines look "scheme-like".

Q3. With reference to Census 2027, which of the following statements is/are correct?

1. Phase 1 beginning around 1 April 2026 is India's first fully digital Census exercise with a self-enumeration path.

A. Only 3 B. 1 and 2 C. 2 and 3 D. Only 1

▼ **Show answer**
